

FINNISH EDUCATION DELEGATION

BENGALURU, INDIA
September 21-23, 2022

Finnish Education Delegation in Bengaluru

September 21-23, 2022

In connection with the DIDAC India event, a delegation of Finnish education experts and education service providers is visiting Bengaluru. Throughout the week, there will be several opportunities to meet with members of the delegation.

For those visiting the DIDAC India exhibition, the Education Finland pavillion introduces different elements and represents levels of Finnish education, from early childhood education and care to higher education. The presentations held at the pavilion on the first two days of the event give the audience a chance to learn and experience methods utilized in Finnish education.

The programme at the Education Finland pavillion (Sept 21-22):

The programme is subject to change, please check at the pavillion for an up-to-date version.

14:00 Finland's Secrets to Early Learning / *Milla van der Burgh, Kindiedays*

14:20 Introducing Digital Pedagogy in the Schools / *Avan Goel, Eduten*

14:40 Focus on Better Learning - Finnish learning materials / *Mari Kyyhkynen, Otava Learning*

15:00 Project-based learning (Wed)/ Entrepreneurship Education (Thu)/ *Sanna Nummela, EduCluster Finland*

15:20 Why is it important to bring balance skill training into the classroom? / *Christina Nurmi, Gymi Education*

15:40 STEAM challenges in the classroom / *Maikki Manninen, PINO Network*

Please also join us for the following **workshops** in the DIDAC India programme:

Wed 21.9. at 15:15-16:15 (Workshop Arena 2, Hall Number 1)
Teaching & Learning in Finland - Case Study for India

Fri 23.9. at 12:15-13:15 (Workshop Arena 2, Hall Number 1)
Globally recognised Finnish model of Education

WHY FINLAND

To succeed in a constantly changing world, you have to change as well. Finland has reinvented itself in just one short century - and we're still at it. Our national character and Northern heritage have boosted us to the top of all kinds of country rankings, especially on education. Certainly, you can benefit from our fresh ideas, extensive knowledge and innovative solutions for education.

World-leading country in education and edtech innovation

The Finnish excellence in education lies in the strong emphasis on lifelong learning. Thus, the aim has been to continuously develop all the levels of education.

Our early childhood and K12 core curricula have been implemented highlighting the importance of individual approach and the 21st century skills. In vocational education and training, the collaboration with companies is stronger than ever before due to the reform launched in the beginning of 2018.

In higher education the vision for 2030 targets to world-class science, R&D and education. Our educational institutes are ready to support the development of e.g. teachers' competencies, curricula, learning environments and digitalization of the schools.

Finland enjoys one of the most advanced and expansive selection of educational technology for all levels of education, ranging from formal to extracurricular learning. Educational technology in Finland is teacher-driven, and there is a good understanding how the technology can complement innovative teaching methods. In combination with the country's strong ICT sector and a booming gaming industry this has helped to create favorable conditions for developing cutting-edge digital learning solutions that make learning fun.

4TH EDUCATION

According to the Legatum Prosperity Index, Finland ranks fourth out of 167 countries in education. The global index measures access to educations, quality of education and human capital.

1ST COUNTRY FOR FUTURE SKILLS EDUCATION

Finland emerges as the country that best prepares students for the challenges that await them in work and society, according to the Worldwide Educating for the Future Index.

Marjo Somari
Senior Specialist
marjo.somari@oph.fi

Education Finland is a governmental cluster programme supporting the best Finnish educational providers in their growth on international markets. The programme is coordinated by the Finnish National Agency for Education and funded by the Ministry of Education and Culture. To become a member, companies must meet strict membership criteria and commit to a code of conduct putting the benefit of the client in the centre. The selected members are given the opportunity to use a label of official membership.

The members represent educational institutes at all levels of education and private companies. Our members' expertise covers educational and learning products – technologies, programs, applications, digital learning suites and software, educational content and materials – to services such as teacher training, pedagogical and vocational programs.

The programme is a hub of Finnish expertise and solutions that can help your organisation and your target groups succeed.

EDUCATION FINLAND MEMBERS IN THE BENGALURU DELEGATION

EDUCLUSTER FINLAND

Sanna Nummela
Service Director
sanna.nummela@educluster.fi
educluster.fi

EduCluster Finland (ECF), University of Jyväskylä Group shares Finnish education experience and know-how through dynamic partnerships across the globe.

All over the world, people are talking about the ‘the Finnish phenomenon’. People ask how Finland can consistently top international academic rankings, while placing a profound focus on mental and physical well-being.

The resounding success of Finnish education is evidenced by international rankings and benchmarking. From the first PISA test performed in 2000, Finland has maintained its top place in reading and science. The ECF approach takes this concept, reinventing it for contexts worldwide.

ECF has been involved in 250+ international projects over the past twelve years. Under the auspices of the University of Jyväskylä, it utilises know-how from a pool of over 5000 experts specialising in multi-disciplinary features of education.

EduCluster Finland specializes in three main areas of focus, establishing Finnish International schools overseas, delivering teacher training and professional development to international institutions, and supporting and delivering innovative approaches to vocational education.

EDUTEN

Henri Muurimaa
CEO
henri@eduten.com
eduten.com

Eduten is a gamified Math learning platform that brings a scientifically proven improvement to learning results, student motivation and teacher happiness. The UNESCO and UNICEF awarded platform is used by teachers in Finland, and in 50+ countries worldwide.

Eduten's vast content library has been designed and tested alongside Finnish teachers. Its adaptive AI engine helps teachers to differentiate content to each individual student.

GYMI EDUCATION

Christina Nurmi
CEO
christina@gymi.fi
gymieducation.com

Gymi Education provides you with physical learning environments and activating furniture as well as teacher training, curriculums and content. We want children to be happy, healthy and able to focus in school. That is why we bring balance and motor skill acquisition and well-being into the classroom.

KINDIEDAYS

Milla van der Burgh
CEO
milla@kindiedays.com
kindiedays.com

Kindiedays is an EdTech company providing a digital solution (SaaS) for preschools and kindergartens. Kindiedays Pedagogical Management Solution consists of mobile and web apps for educators, families and the management of an early education center or chain. The solution has been delivered to 22 countries and meets the pedagogical objectives of NEP2020 in India.

With Kindiedays you can use a preinstalled or flexibly localised curriculum framework to guide the learning, document children's learning with photos, videos, notes and curriculum objectives, engage families and show evidence of children's learning progress in the curriculum, access automatically-generated portfolios that include pedagogical objectives and evaluate and develop learning with reports and statistics for formative assessment.

MOVEDUCA

Shilpa Amrawat
movEDUCA representative in India
shilpa.amrawat@gmail.com
liikuttavaa.com/moveduca

movEDUCA believes in an all-encompassing approach for promoting positive life development in a pupil. We help teachers to understand children's developmental needs and focus on enhancing skills that foster good relationships between teachers and students. We aim to enable teachers to have good social and emotional (SEL) competence to interact with students in a supportive and respectful way. Our approach and program include all SEL -elements. Also, we aim to increase the understanding of the positive impact of physical activities on learning and well-being during the whole school day.

OTAVA PUBLISHING COMPANY

Mari Kyyhkynen
Sales Director
mari.kyyhkynen@otava.fi
learning.otava.fi

Otava Publishing Company Ltd is a major Finnish publishing house. It publishes both printed and digital educational materials for a wide range of subjects and for all levels of education. These materials have been one of the reasons behind the Finnish success in the educational field. Otava's service business helps schools to implement the transformation of education and coaches teachers on school digitalisation.
